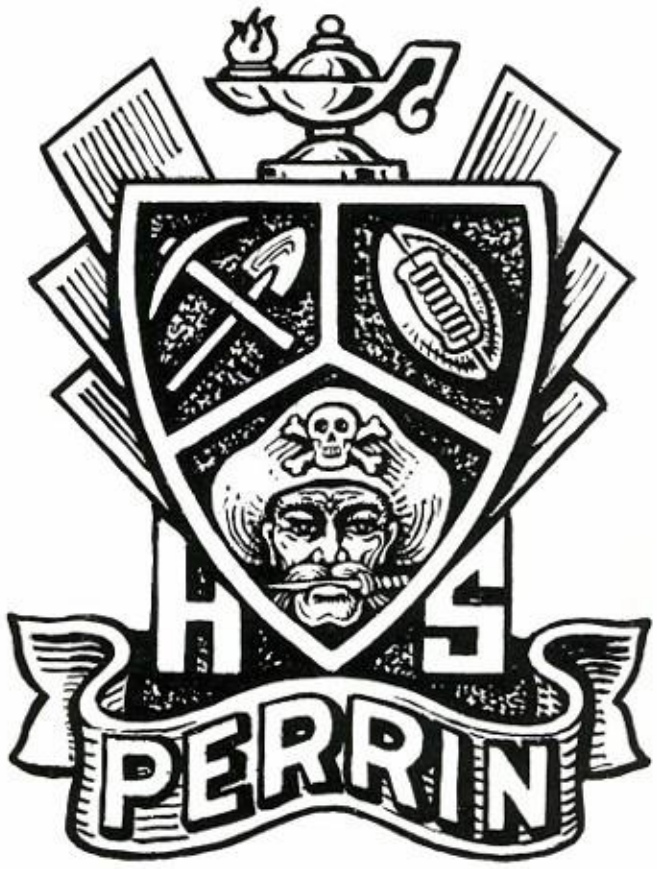
PIRATE



The '61 Pirate

Perrin School

Perrin, Texas

Foreword

We present the 1961 edition of the Pirate to you: our fellow schoolmates, faculty, and friends.

This book has been made possible for you through the joint effort of our sponsor, staff, advertisers, and other friends. Our goal was to present to you a book of golden memories.

Our thanks are extended especially to our sponsor. Because of her guidance in making the '61 Pirate, we dedicate this yearbook to Mrs. Elizabeth Steele.

JUNIORS

SETTLERS AT WORK

Early Americans had to live together in harmony or they would not survive. This was called "government by consent of the governed" and is the basis of government today.

Chapter 3

IN THE BEGINNING OF GOVERNMENT IN THE UNITED STATES

The roots of American government reach deep into the past. The system of government did not suddenly spring into being as if by magic at some political magician's wand. Nor was it pulled out of thin air by the Founding Fathers, as Minerva sprang full-armed from the head of Jove. Rather it is the product of many years of growth and development.

The Colonial Period

Our English Heritage. The French, Spanish, Dutch, Norwegians, and other Europeans settled in parts of what was to become the United States. But it was the English who came in the largest numbers. And it was the English who came to control the thirteen colonies that stretched for 1,200 miles along the Atlantic seaboard.

These early pioneers who carved out a new life in the wilderness and fought off the Indians had to look on their own country as a future home. Their eyes and hearts were turned back to the land they had left behind. They had come to America in search of greater free-

of which are to be found today in the United States. For example, Anglo-Saxon moots were well known in most areas settled by the first English-speaking settlers in America.

(2) *The Twin Concepts of Limited Government and Civil Liberties.* They brought with them, too, the twin ideas of limited government and civil liberties. That is, that government is not all-powerful, that government is limited in what it may do, and, generally, that it is limited in the ways that each man has certain rights that government cannot injure or take away. These great principles of freedom were proclaimed in such historic English documents as the Magna Carta in 1215, the Petition of Right in 1628, and the Bill of Rights and the Act of Toleration of 1689.

(3) *The Concept of Representative Government.* A third vitally important concept brought to America in English ships was that of representative government. For centuries there had been developing in England the
